TherapeuticsMD Announces First Quarter 2023 Financial Results

BOCA RATON, Fla. – May 15, 2023 – TherapeuticsMD, Inc. (“TherapeuticsMD” or the “Company”) (NASDAQ: TXMD), a company that owns rights to pharmaceutical royalties, today reported financial results for the first quarter ended March 31, 2023.

First Quarter 2023 Financial Results

Net Loss from Continuing Operations

- Net loss from continuing operations was \$2.3 million for the quarter ended March 31, 2023, or \$0.24 per basic and diluted common share, compared to a net loss from continuing operations of \$17.9 million, or \$2.08 per basic and diluted common share, for the comparable period in 2022.

License and Service Revenues from Continuing Operations

- License and service revenues from continuing operations, which are revenues related to license agreements, were \$0.4 million for the quarter ended March 31, 2023, compared to \$0.7 million in license and service revenue related to sales to other licensees for the first quarter of 2022. This decrease was due to a decrease in sales to licensees as a result of the Company’s transformation and transition from a manufacturing and commercialization business to a royalty-based business, partially offset by the license revenue recognized during the first quarter from the Mayne License Agreement.

Total Operating Expenses from Continuing Operations

- Total operating expenses from continuing operations for the first quarter of 2023 were \$3.1 million, a decrease of \$14.8 million, or 82.8%, compared to the first quarter of 2022. This decrease was due to the transition of our business from a manufacturing and commercialization business to a royalty-based business with limited infrastructure.

Discontinued Operations

- Net loss from discontinued operations was \$1.3 million for the quarter ended March 31, 2023, or \$0.13 per basic and diluted common share, compared to a net loss from discontinued operations of \$31.1 million, or \$3.62 per basic and diluted common share, for the comparable period in 2022.

The Company continues to wind down its former commercial operations and to focus on reducing costs.
