FOR IMMEDIATE RELEASE

TherapeuticsMD Announces Second Quarter 2018 Financial Results

-Imvexxy[™] early experience program underway; national launch to commence August 6, 2018--PDUFA target action date of October 28, 2018 for TX-001HR-

BOCA RATON, Fla. – July 30, 2018 – TherapeuticsMD, Inc. (NASDAQ: TXMD), an innovative women's healthcare company, today announced its financial results for the quarter ended June 30, 2018.

Second Quarter and Recent Developments

- Received FDA approval of Imvexxy[™] (estradiol vaginal inserts) on May 29, 2018 for the treatment of moderate-to-severe dyspareunia (vaginal pain associated with sexual activity), a symptom of vulvar and vaginal atrophy (VVA), due to menopause.
- Completed the first drawdown of \$75 million on June 7, 2018 under its previously announced \$200 million term loan facility with MidCap Financial, managed by Apollo Capital Management, L.P. to support the commercial launch of its recently approved product.
- Initiated Imvexxy's limited launch (early experience program) on July 9, 2018 with the 10 mcg dose, which will be followed by the national launch of the 10 mcg dose that is expected to commence on August 6, 2018. In the first three weeks of limited launch (July 9-27, 2018), approximately 1,363 healthcare providers have initiated at least one patient on treatment and sent in the follow-on prescription for continuation of treatment on the maintenance pack. The 4 mcg of Imvexxy is expected to be available in early September 2018.
- Net revenue for the company's prescription prenatal vitamin business was approximately \$3.8 million for the second quarter of 2018, compared with approximately \$4.3 million for the second quarter of 2017.
- Net loss was approximately \$33.2 million for the second quarter of 2018, compared with approximately \$19.7 million for the second quarter of 2017.
- Ended the quarter with approximately \$154.4 million in cash and approximately \$73.1 million in outstanding debt.
- Grew the company's intellectual property portfolio to a current total of 237 global patent applications with 20 issued foreign patents and 19 issued U.S. patents.

"We made important progress during the first half of 2018 that has given us an exciting start to the year," said Robert G. Finizio, Chief Executive Officer of TherapeuticsMD. "We are focused on commercial and operational execution with the launch of Imvexxy and an approaching PDUFA date for TX-001HR."

Summary of Second Quarter 2018 Financial Results

Net revenue from the company's prescription prenatal vitamin business was approximately \$3.8 million for the second quarter of 2018 compared with net revenue of approximately \$4.3 million for the prior year's quarter. This decrease was primarily attributable to a decrease in the average net revenue per unit of the company's products, which was primarily related to higher estimates related to offered discounts in 2018, partially offset by an increase in the number of units sold.

Cost of goods sold was approximately \$0.5 million for the second quarter of 2018, compared with approximately \$0.7 million for the prior year's quarter.

Total operating expenses for the second quarter of 2018 included research and development (R&D) expenses and sales, general, and administrative expenses (SG&A). R&D expenses for the second quarter of 2018 were approximately \$6.8 million compared with approximately \$8.7 million for the prior year's quarter. The decrease in R&D was a direct result of the completion of the Replenish Trial for TX-001HR. SG&A expenses for the second quarter of 2018 were approximately \$14.6 million for the prior year's quarter, primarily due to higher sales, marketing, and personnel costs to support commercialization of Imvexxy and pre-commercialization expenses for TX-001HR.

Net loss for the second quarter of 2018 was approximately \$33.2 million, or \$0.15 per basic and diluted share, compared with approximately \$19.7 million, or \$0.10 per basic and diluted share, for the second quarter of 2017.

Balance Sheet

As of June 30, 2018, the company's cash on hand totaled approximately \$154.4 million, compared with approximately \$127.1 million at December 31, 2018. Total outstanding debt, net of issuance of costs, was approximately \$73.1 million as of June 30, 2018.
