FOR IMMEDIATE RELEASE

TherapeuticsMD Announces Third Quarter 2015 Financial Results

- Topline phase 3 data anticipated in fourth quarter for TX-004HR to treat symptoms of VVA-

 Completed enrollment in phase 3 Replenish Trial for first potential FDA-approved bio-identical oral combination hormone therapy –

- Management to host conference call today at 4:30 p.m. EST -

BOCA RATON, Fla. – **November 4, 2015** – TherapeuticsMD, Inc. (NYSE MKT: TXMD), an innovative women's healthcare company, today announced its third quarter financial results for the period ended September 30, 2015.

Recent and Third Quarter Developments

- Revenues, net for the company's prescription prenatal vitamin business increased to approximately \$5.2 million for the third quarter of 2015 compared with approximately \$4.2 million for the third quarter of 2014.
- Net loss was approximately \$19.5 million for the third quarter of 2015, compared with approximately \$17.8 million for the third quarter of 2014, reflecting the costs of two phase 3 clinical trials for the company's novel hormone therapy drug candidates.
- Completed last patient visit in the Rejoice Trial, a phase 3 clinical trial of TX-004HR, an applicator-free vaginal estradiol softgel drug candidate for the treatment of moderate to severe pain during sexual intercourse (dyspareunia), a symptom of vulvar and vaginal atrophy (VVA) due to menopause.
- Completed patient enrollment in the Replenish Trial, a phase 3 clinical trial of TX-001HR, a combination estradiol and progesterone drug candidate, for the treatment of moderate to severe vasomotor symptoms due to menopause.
- Ended the quarter with approximately \$81.1 million in cash and no debt.
- Grew the company's intellectual property portfolio to a current total of 111 patent filings, including 61 international filings, with two allowed and 13 issued U.S. patents.
- Supported scientific abstracts and presentations at the annual meeting of the North American Menopause Society.
- Continued to develop relationships with key medical, pharmacy, patient and industry organizations.

"As we pursue our mission to address women's health needs, we believe that there is a unique confluence of factors evolving on the scientific, regulatory, legislative and commercial fronts that will help us to make significant progress toward delivering on our vision and strategy," said TherapeuticsMD CEO Robert G. Finizio. "We continue to execute both commercially and in R&D, including completion of enrollment in our Replenish Trial of TX-001HR, our combination estradiol and progesterone drug candidate for treatment of moderate to severe vasomotor symptoms due to menopause. We also expect topline data from our Rejoice Trial of TX-004HR for dyspareunia associated with VVA by the end of this year. The market need for our products is large and growing, and we are building key alliances with healthcare providers, women's health advocates and industry organizations."

Third Quarter Financial Results Summary

Revenues, net for the third quarter of 2015 increased by 24 percent to approximately \$5.2 million compared with revenues, net of approximately \$4.2 million for the prior year's quarter. Revenue growth during the third quarter was primarily driven by increased number of units sold, product mix, and average net sales price of the company's prenatal vitamin products.

Cost of goods sold increased to approximately \$1.2 million for the three months ended September 30, 2015, compared with approximately \$1.1 million in the prior year's quarter.

Total operating expenses for the third quarter of 2015 included research and development (R&D) expenses and sales, general and administration (SG&A). R&D expenses for the third quarter of 2015 were approximately \$16.4 million compared with approximately \$14.9 million for the prior year's quarter. The increase in R&D expense was primarily due to an increase in scale-up and manufacturing activities for the company's phase 3 drugs in development, which was partially offset by lower clinical trial costs. SG&A expenses for the third quarter of 2015 were approximately \$7.0 million compared with approximately \$6.0 million for the third quarter of 2014, primarily as a result of increases in human resources costs and professional fees, which were partially offset by a decrease in marketing costs.

Non-operating income remained insignificant for the third quarter of 2015 and 2014 and included miscellaneous and interest income for both periods.

Net loss for the third quarter of 2015 was approximately \$19.5 million, or \$0.11 per basic and diluted share, compared with approximately \$17.8 million, or \$0.12 per basic and diluted share, for the third quarter of 2014.

At September 30, 2015, TherapeuticsMD had cash on hand of approximately \$81.1 million, compared with approximately \$51.4 million at December 31, 2014.
